

### MAGNIFIER LENS

Rev. 07 Nov 2018

#### 3X and 5X Afocal Objective Lenses for PVS-7B/D, PVS-14

3X Lens  
P/N: A3256391

5X Lens  
P/N: AA-473-000-04

5X shown  
on a PVS-7

3X shown  
on a PVS-14

The 3X or 5X afocal lens assemblies offers the night vision operator the ability to quickly convert the PVS-7B/D or PVS-14 from the tactical 1X lens configuration to a magnified configuration for long-range observation. This is accomplished either by rapid clip-on or threaded installation techniques. Afocal Magnifier lenses provide operators with maximum system flexibility and tactical advantage. Each lens comes with a lens cap to protect the lens from damage and a soft carrying case that is equipped with ALICE clips for attaching to tactical or military uniforms.
