The Ground Commander Pointer is a hand-held infrared (IR) pointer and illuminator. The IR light is invisible to the naked eye but is fully visible to troops using a night vision device.

The GCP allows the commander to direct concentrations of fire to key points resulting in a force multiplier. The GCP is adjustable to provide target marking and illumination for covert ground operations. It enhances operations in the quickly changing battlefield environment.

GCP-1s are approved for non-Department of Defense (DOD) use allowing for law enforcement applications.

Export of the commodities described herein is strictly prohibited without a valid export license issued by the U.S. Department of State, Directorate of Defense Trade Controls as proscribed in the International Traffic in Arms Regulations (ITAR), Title 22 Code of Federal Regulation, Parts 120-130.

**SPECIFICATIONS***:

- **Size** (L x W x H): 17.1cm x 4.7cm x 3.1cm
- **Weight**: 168g (with 2 AA lithium batteries)
- **Mounting Provisions**: none
- **IR Laser Output**: 50 or 100 or 175 mW
- **Laser Class**: Infrared, 3B
- **Beam Wavelength**: 835 ± 25nm
- **Beam Divergence**: 0.5mR spot - 500mR flood
- **Beam Modulation**: Continuous Wave
- **Beam Shape**: Rectangular (-1A,-1B) Circular (-1C)
- **Azimuth & Elevation Adjustments**: none
- **Power Source**: AA alkaline, 2ea. (-1A,-1B) AA lithium, 2ea. (-1C)
- **Environmental**: -32˚ C to +51˚ C (operating temp.) -57˚ C to +71˚ C (storage temp.)

*Specifications are subject to change without notice.

**FEATURES**

**Eye-Safe Selector**
The GCP-1 is equipped with a selector switch that allows for an eye-safe training mode.

**Momentary Switch**
A robust switch is featured on the unit for use with or without gloves.

**Battery Power**
The unit’s power operates on two AA alkaline or lithium batteries.

**Hand-Held Operation**
The GCP-1 is designed for simple, easy to use hand-held operation.
