The MUM-14 is a high performance modular, hand-held passive night vision monocular device that utilizes a single Generation II/III intensifier tube to provide crisp, clear images under the darkest conditions. The MUM-14 “single tube / single eyepiece” approach to night vision missions is based upon the proven concept that independent use of each eye maximizes the ability of the user to operate under a wide range of low light conditions and maintain maximum situational awareness.

Small and Versatile, the MUM-14 gives you a high performance 2nd or 3rd generation system in the smallest, toughest package available. The MUM-14 has the ability to be weapon mounted, head/helmet mounted, hand-held, optionally attached to cameras and extender 3x/5x Afocal objective lenses. Also available is the dual-system head/helmet mount that allows two MUM-14’s to become one binocular system.

**MUM-14™ BASIC KIT:**

- Multi Use Monocular Assembly
- Swing Arm Interface
- Weapon Mount
- Soft Carry Case
- Battery Adapter
- Neck Cord
- Objective Lens Cap
- Sacrificial Filter
- Batteries (AA and CR123)
- Lens Tissue
- Demist Shield
- Shoulder Strap
- Eyecup Assembly
- Operator Manual (not shown)
- Head Mount Assembly with pads

**OPTIONS, ACCESSORIES and FEATURES**

- **IR Flood/Spot**
  Attaches to the unit's IR source

- **Magnifier Lenses**
  3x, 4x, 5x Quick attach Afocal lenses

- **Compass**
  Attaches to the objective lens

- **Camera Adapter**
  Uses a 46mm thread to attach the MUM-14 to a camera for night vision photography. Adapter rings available.

- **Shuttered Eyecup**
  For covert operations

- **Helmet Mount**
  Easily secures to helmet for combat missions
