

MUM-14™ KIT

Aug 31, 2016

Mini-Monocular (LESS IMAGE TUBE)

DESCRIPTION*

The MUM-14 is offered to in a Kit configuration without an image intensifier tube. It is a high performance modular, hand-held passive night vision monocular device that utilizes a single Generation II/ III intensifier tube to provide crisp, clear images under the darkest conditions. The MUM-14 maximizes the ability of the user to operate under a wide range of low light conditions and maintain maximum situational awareness.

When fitted with a quality image tube, the MUM-14 gives you a high performance 2nd or 3rd generation system in the smallest, toughest package available. The MUM-14 has the ability to be weapon mounted, head/helmet mounted, hand-held, optionally attached to cameras and extender 3x/5x Afocal objective lenses. Also available is the dual-system head/helmet mount that allows two MUM-14's to become one binocular system.
